MY SELF

Innovative Electronics and Telecommunications Engineering student with a strong foundation in website development, PCB design, and product design. Founder of MODISTIAN Collection, an online custom clothing brand, where I lead development efforts, digital marketing, and customer-focused design. Known for an analytical approach and collaborative work style, I bring hands-on experience in problem-solving through technical projects and entrepreneurial ventures. Eager to contribute to leveraging technology to solve meaningful problems and enhance user experiences.

PROJECTS & INTERNSHIPS

LINE-FOLLOWER ROBOT   2024
- Developed a line follower robot as a part of a hands-on electronics project. Designed and implemented the circuitry, sensors, and control logic to enable the robot to autonomously follow a designated path.

MODISTIAN Collection Website
- Designed and developed the official website for MODISTIAN Collection, an online custom clothing brand. Built an engaging and user-friendly interface, focusing on seamless navigation and an optimized shopping experience.

ASP org Website   **2024**
- Designed and developed a website for the ASP organization, ensuring a professional, responsive layout that effectively communicates the organization's mission and services.

PRODIGY INFOTECH INTERNSHIP   **1st-31oct ,2023**
. Created a landing page with optimized design and responsive features, and developed two additional projects that focused on front-end and back-end integration. Strengthened skills in HTML, CSS, JavaScript, and backend technologies, .

OCTANET SW.SERVICE INTERNSHIP   **1st oct ,2023**
. Created a WEBSITE using HTML, CSS, JavaScript, and backend technologies, .
